Summary

Frontend Developer working in React, TypeScript and Next.js, with growing full-stack experience in Node, Express and REST APIs. Independently designed and shipped Music IP, a full-stack funding review dashboard with a persistent Express API, Zod-validated writes and Vitest coverage. Completed three structured internship projects in 2025, including a Stripe-integrated subscription platform and an AI skin-analysis interface. Twenty years in music production, including operations QA at CD Baby, brings disciplined client delivery and unusual depth in audio-driven UI.

Experience

Frontend Simplified (Internship Program) - Summarist - Remote

Oct 2025 - Nov 2025

Frontend Developer Intern

- Built a production Next.js and TypeScript book-summary platform with Redux global state, protected routes, and scalable component architecture.
- Integrated Firebase Auth (email/password, Google, guest) with persistent sessions and client-side hydration guards.
- Implemented Stripe payments for tiered subscription access with webhook handling for premium content gating.
- Achieved Lighthouse scores of 99% performance, 94% accessibility, and 100% Best Practices and SEO via image optimisation, code splitting, and ARIA compliance.

Frontend Simplified (Internship Program) - Skintric AI - Remote

Sep 2025 - Oct 2025

Frontend Developer Intern

- Built a responsive AI skin analysis React app with custom camera capture, client-side image preview, and real-time results dashboard.
- Implemented camera permission handling and API error recovery; delivered sub-1.5s FCP and a 100% Lighthouse score.

Frontend Simplified (Internship Program) - Ultraverse - Remote

Aug 2025 - Sep 2025

Frontend Developer Intern

- Converted a static NFT marketplace into fully dynamic REST API-driven components with responsive design across all breakpoints.
- Migrated deployment from GitHub Pages to Vercel, cutting load time and improving performance score by 15%.

CD Baby - Portland, OR

Sep 2018 - Mar 2023

Operations QA / Artist Services

- Performed quality assurance on digital music releases, inspecting catalogue metadata (titles, contributors, ISRC and UPC codes, artwork) and approving releases for delivery to streaming platforms.
- Resolved artist-facing distribution issues via phone, email and chat, translating platform requirements into plain language for non-technical clients.

Independent - Remote

2005 - 2025

Musician and Music Producer (Self-Employed)

- Delivered original compositions for labels and sync licensing libraries across concurrent client projects, building the deadline discipline and stakeholder communication skills that carry directly into agile product teams.

Projects

Music IP - Funding Review Dashboard | [Live Demo](#) | [GitHub](#)

- React, TypeScript, Express, Zod, TanStack Query, Tailwind CSS, Vitest: full-stack internal tool for reviewing catalogue-backed funding applications, with a persistent Express REST API, Zod-validated writes, status workflows, and timestamped notes; 100% Lighthouse score across all categories on desktop audit.

Pulse - Campaign Dashboard | [Live Demo](#) | [GitHub](#)

- React, TypeScript, Zustand, Tailwind CSS, Radix-UI, Recharts, Vitest: gives digital agency teams a single view of campaign performance across channels, sortable, filterable, chart-ready, and built with URL-persistent state so filtered views can be shared; Lighthouse scores of 99% performance and 100% across all other categories.

EQ-6 Parametric Equalizer | [Live Demo](#) | [GitHub](#)

- React, TypeScript, Web Audio API: browser-based 6-band parametric EQ with real-time BiquadFilterNode signal chain, interactive SVG graph with draggable handles, and live spectrum analyser; 100% Lighthouse score.
