Experience

Frontend Simplified - Summarist - Remote

Oct 2025 - Nov 2025

Frontend Developer Intern

- Built a production Next.js and TypeScript book-summary platform with Redux global state, protected routes, and scalable component architecture.
- Integrated Firebase Auth (email/password, Google, guest) with persistent sessions and client-side hydration guards.
- Implemented Stripe payments for tiered subscription access with webhook handling for premium content gating.
- Achieved a 96% Lighthouse score across performance, SEO, and accessibility via image optimisation, code splitting, and ARIA compliance.

Skinstric AI - Remote

Sep 2025 - Oct 2025

Frontend Developer Intern

- Built a responsive AI skin analysis React app with custom camera capture, client-side image preview, and real-time results dashboard.
- Implemented camera permission handling and API error recovery; delivered sub-1.5s FCP and a 96% Lighthouse score.

Frontend Simplified - Ultraverse - Remote

Aug 2025 - Sep 2025

Frontend Developer Intern

- Converted a static NFT marketplace into fully dynamic REST API-driven components with responsive design across all breakpoints.
- Migrated deployment from GitHub Pages to Vercel, cutting load time and improving performance score by 15%.

Independent - Remote

Apr 2023 - May 2025

Musician (Self-Employed)

- Delivered original compositions for labels and sync licensing libraries across concurrent client projects, building the deadline discipline and stakeholder communication skills that carry directly into agile product teams.

Projects

Pulse - Campaign Dashboard | [Live Demo](#) | [GitHub](#)

- React, TypeScript, Zustand, Tailwind CSS, Radix-UI, Recharts, Vitest: gives digital agency teams a single view of campaign performance across channels - sortable, filterable, chart-ready, and built with URL-persistent state so filtered views can be shared.

Summarist | [Live Demo](#) | [GitHub](#)

- Next.js, TypeScript, Redux, Firebase, Stripe: production book-summary platform with tiered subscriptions, audio playback, and fully protected route architecture.

Ultraverse NFT Marketplace | [Live Demo](#) | [GitHub](#)

- React, Axios, Vercel: dynamic NFT marketplace consuming multiple REST APIs with carousel animations, responsive layout, and Vercel-optimised deployment.

EQ-6 Parametric Equalizer | [Live Demo](#) | [GitHub](#)

- React, TypeScript, Web Audio API: browser-based 6-band parametric EQ with real-time BiquadFilterNode signal chain, interactive SVG graph with draggable handles, and live spectrum analyser.
